Summary

My Portfolio: <https://witorsather.github.io/>

About Me: Data Analyst and Business Intelligence Analyst with 3 years of experience in the telecommunications / HR segments, elaboration of informational and managerial data for decision making. Work in BI teams using agile methodologies, data analysis and modeling, ETL development (extraction, transformation and load). Use of market BI tools such as SSIS (SQL Server Integration Services) and SSAS (SQL Server Analysis Services). Application of best practices, tools and management models to build ETL solutions. Analysis and monitoring of the execution of KPI's deepening.

Experience

Data Analyst & Business Intelligence

LG lugar de gente

Apr 2021 - Present (1 year 8 months +)

Maintenance of B.I and Analytics projects with Microsoft Power BI and QlikView, using SQL Server database and Azure SaaS. Support in product support. Carry out the approval of new versions, avoiding uploading defective versions in production. Write database queries for data extractions as required by the business. Meet weekly with the planning team, to align the activities to be developed. Analyze and detail errors in the tools whenever necessary, checking where the error occurs and its impact, in order to define priorities for solving the error and forward it to the system development team. Study new technologies through internet research, in order to bring innovations and new solutions that are interesting for the organization. Offer usage guidelines to users in order to train them in the use of the tools. Power BI, QlikView, SQL Server.
